The Metaverse Kongcoin

**The next revolution metaverse
play and earn.**

Kongcoin is creating a full attractive defi ecosystem with the most trendy features in crypto space : Kongcoin World

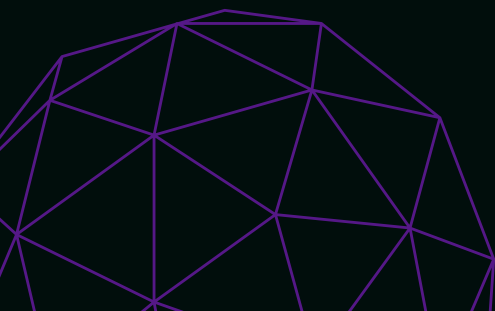

Kongcoin has three flagship utility projects :

- NFT gaming metaverse
- NFT and merchandise marketplace
- Dex & Launchpad platform

Due to an inactive and uncommitted community in many projects, the products and services provided are usually not so used by the public.

It's why we are always in action to take the members of our community seriously, the Kongcoin communities

The Metaverse Kongcoin Solutions

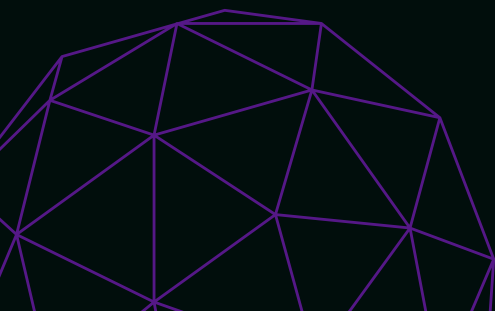

Kongcoin combines both advantages of a meme and utility token, creating a full attractive defi ecosystem with its ultra-engaged community, letting us having the most current trendy features.

To achieve our goal we have multiple solution :

1 - Dex & Launchpad

With the help of our ultra engaged community and a very strict selectives criteria, we would like to create an appropriate Exchange and Launchpad platform which will promote new projects to allow members having the chance to being an early investor in the best upcoming project.

2 - Rare NFT's collection Drop and NFT Marketplace

An unique collection of NFT's will be released in Q3 2022.
10 000 Random NFT's will be minted and used later into the play to earn game.

Staking will be implemented just before the launch of NFTs with a yield of 110% per year.

Minimum amount required \$500 up to \$6500.

Be careful, places will be limited to 1200 people. To have a chance of being selected, you will have to be useful in the KongCoin community.

Our 1000 biggest holders will be entitled to mint 1 nft for free which will be used as a skin (with additional skills) in the game "KongCoin" which will be P2E.

Solutions

Each NFT in this collection has a specific clarity value. The utility of this value is not disclosed to the public yet. In addition to this value, each NFT has a chance to receive one of the following hidden attributes:

- X
- Y
- Z

These values and utilities of these hidden attributes are not disclosed to the public yet.

3 - Play to earn game

As part of its effort to building out utility of its token, Kongcoin has revealed its flagship project, Kongcoin World : a metaverse NFT game running on the Kongcoin token

The Metaverse Kongcoin Solutions

The KongCoin game will have several game modes in 1vs1 and team play. You will have the opportunity to earn in-game rewards that can be redeemed for cryptocurrency. We will recruit a team of streamers who will represent our team of challengers.

One way of NFTs is now being used is to give power back to gamers. Kongcoin world seeks to provide gamers a fun and immersive experience which they can fully own and profit.

Kongcoin World is a play-to-earn metaverse NFT game. In addition to being rewarded for battling, everything that you gain in the metaverse is yours, to own or to sell as you wish.

Tournament will be organized each month so that you can measure yourself against our team or in 1vs1. Cashprice will be put into play during the events. Several partnerships will be announced within this same period.
